MEETING NOTICE

THERE WILL BE A MEETING OF THE LITTLE CALUMET RIVER BASIN DEVELOPMENT COMMISSION

AT 6:00 P.M. WEDNESDAY, SEPTEMBER 2, 2009

5:30 WORK STUDY SESSION

AT THE MUNSTER TOWN HALL
1005 Ridge Road, Munster, Indiana

AGENDA

1. Call to order by Chairman Dan Dernulc

2. Pledge of Allegiance

3. Recognition of Visitors and Guests

4. Approval of Minutes from August 3, 2009

5. Chairman's Report
   • Executive Session held on August 19, 2009
   • Commission letter to RDA requesting $250,000; RDA approval letter dated 8/26/09
   • Update of Stage VII contract
     (Northcote to Columbia, both sides of the river) Contractor: CERES Environmental Services
     Date of Lines of Protection Completion: ±9/24/10
   • Update of Stage VIII contract
     (Columbia Ave to the state line, both sides of the river) Contractor: Walsh Construction Co. of Illinois
     Date of Lines of Protection Completion: ±12/9/10
Email
SAM AN Ted C. Aol.com
Phone 219-923-6160
SAM Co (Int)
8242 Hawthorne Dr
Munster, Ind. 46321
6. Action Required:
   Finance: Approval of claims for August 2009
   Approval of O&M claims for August 2009
   Any other action required?
   
7. Standing Committees:
   A. Finance Committee
      • Financial Status Report for end of July 2009
      • NIRPC invoice for July 2009
      • 2nd letter from Army Corps requesting $226,000 as 7% cost share
         participation to match $3 million federal stimulus money
      • Corps letter withdrawing $800,000 from construction account
      • Received updated non-federal cost share projections thru 2012

   B. Land Acquisition/Land Management Committee
      Land Acquisition
      • Items of Discussion
      Land Management
      • Items of Discussion

   C. Project Engineering Committee
      • Status of Stage V-2 pipeline corridor
      • Stage VII utilities completed
      • Update on Stage VIII utilities
      • Update on Pump Station contracts

   D. Operation & Maintenance
      • Levee mowing completed
      • Items of Discussion

   E. Legislative Committee
      • Commission approved for $14 million in discretionary federal stimulus
        money to complete project
        > LCRBDC budget request to be submitted for consideration at
        September Budget Committee meeting

8. Other Issues / New Business

9. Statements to the Board from the Floor

10. Set date for next meeting; adjournment
MINUTES OF THE LITTLE CALUMET RIVER BASIN DEVELOPMENT
COMMISSION HELD AT 6:00 P.M. MONDAY, AUGUST 3, 2009

Held at
Munster Town Hall,
1005 Ridge Road, Munster, IN

Attorney Lou Casale opened the meeting. He reported that the Development Commission has been appointed by the Governor but there are no officers at this time. He suggested that a temporary chairman be elected to take us through the process of the election of officers.

Dan Dernulc made a motion to suspend the rules of the by-laws; motion seconded by Kent Gurley; motion passed unanimously. Kent Gurley made a motion for Dan Dernulc to be the temporary chairman. There were no other nominations from the floor. Motion passed. With that, Dan Dernulc called the meeting to order at 6:10. Pledge of Allegiance was recited. A roll call of Commissioners determined they were all present. The five Commission members were introduced. Mr. Dernulc recognized Tom DeGiulio and Dave Nellans from the town of Munster and also Senator Frank Mrvan; he thanked the visitors for coming.

Development Commissioners:
Dan Dernulc
William Baker
Kent Gurley
Tom Wichlinski
Ron McAhron

Visitors:
Dave Nellans – Town of Munster
Jeff Burton – The Times
Doug Anderson - USACE
Sheldon Edd - USACE.
Barbara Whitaker – Munster resident
Ruth Mores – Southmoor Rd, Hammond
Ed Dernulc - Highland
Vanessa Villarreal - USACOE
Emerson Delaney - Chesterton
Ronald Albin – Munster
William Fitzwater - Munster
Bill Howard - Munster
Bridget Bodefeld - Munster
Elizabeth Johnson – Congressman’s Office
Karen Lorenz – Southmoor Rd, Hammond
Bob Paulson – Munster
Jerry Iwachin - Munster
Tina Kutkoski - Hammond
Mike Zarantonello – Southmoor Rd, Hmd.
Bob & Jennifer Grow
Paul/Mary Lou Daniels - Munster
Leon/Alice Kozlowski - Munster
Elizabeth Howard - WPNA
Irene Behling -WPNC
James/Kalliope Dedelow - Munster
Robert Farag – Griffith Golf Center
Senator Frank Mrvan – Hammond
Tom DeGiulio – Town of Munster
Bea Hanusin – Munster
Mike Wood – Munster
Marc Campagna - Munster
Captain Kelsey Lavicka - USACE
Election of officers ensued. Kent Gurley nominated Dan Dernulc for Chairman. There were no other nominations from the floor. Motion passed. It was then decided to nominate all three remaining officers as a slate. They were William Baker as Vice Chairman, Kent Gurley as Treasurer, and Tom Wichlinski as Secretary. There were no other nominations. Bill Baker made a motion to elect the slate of officers as presented; motion seconded by Ron McAwrhon; motion passed at a roll call vote.

It was noted that the name Sheldon Edd was listed twice under Visitors. After this correction was made to the June 10 minutes, they were approved by a motion from Kent Gurley; motion seconded by Bill Baker; motion passed as corrected by a roll call vote.

Chairman’s Report — Chairman Dernulc asked Army Corps representative Sheldon Edd to give a report on the status of Stage VII. Mr. Edd reported that the contractor, CERES Environmental, is in the process of completing submittals. They are currently doing environmental submittals but should be completed shortly. They are expected to start by the end of the month. Commissioner Baker asked Mr. Edd to explain Baring Avenue to him. He answered that Baring Avenue is part of Stage V-2 and includes a concrete control structure that will be in place permanently. It will keep the water flowing east rather than west.

- Regarding Stage VIII, Mr. Edd reported that Walsh Construction was the selected contractor. They have been given their Notice to Proceed. A pre-construction meeting will be held this Wednesday, August 5.
- Regarding Stage V-2, Dyer Construction is currently doing some floodwall concrete work and piling for floodwall on both sides of the river. They have also started the abutment work for the pedestrian bridge west of Indianapolis Blvd. Most of the lines of protection are installed; a little floodwall work is left to complete. Ron McAwrhon asked if the cost was $20 million for this project. Captain Kelsey Lavicka, who has just returned to the project, will check with Imad and get the answer to Mr. McAwrhon.

Action Required — Treasurer Kent Gurley presented items for action. Mr. Gurley proceeded to make a motion to approve the claims payable for July at a total of $36,395.42; motion seconded by Ron McAwrhon; motion passed with a roll call vote of 5-0.
- Mr. Gurley made a motion to approve the revised claims payable for August at a total of $32,277.81; motion seconded by Ron McAwrhon; motion passed with a roll call vote of 5-0.
- Mr. Gurley made a motion to approve the O&M claims for July in the amount of $1,409.86; motion seconded by Bill Baker; motion passed with a roll call vote of 5-0.
- Mr. Gurley made a motion to approve the O&M claims for August in the amount of $57.45; motion seconded by Bill Baker; motion passed with a roll call vote of 5-0.

Finance Committee — Treasurer Kent Gurley referred to the Financial Statement for the month of May and for the month of June.
- Mr. Gurley referred to the invoices from NIRPC for the month of May and June.

Land Acquisition/Land Management Committee — Commissioner Bill Baker stated that land management issues were on hold until after July 1, when new membership will be appointed to the Commission by the Governor. There are several big land management items that will need to be addressed. He will have a report ready for presentation shortly.
Engineering Committee – Commissioner Kent Gurley referred to the Army Corps Construction Progress Report through the end of July that was distributed to all Commissioners. The Army Corps provides these construction status reports to us monthly and they list the current status of all ongoing contracts. He asked Jim Pokrajac for an update on utilities. Mr. Pokrajac reported that he has been attending bi-weekly progress meetings for Stage V-2. The pipeline relocation coordination and sheet pile installation in the V-2 pipeline corridor is almost complete. There is one remaining area that should be completed shortly; it is adjacent to the T-3 fiber optic line that should be done in about one month. Once all the lines of protection are completed, adjacent to all of the pipelines east and west of the railroad, the remaining lines of protection through the railroad embankment can begin.

- Stage VII utilities - Mr. Pokrajac reported that B.P. Pipelines is the only pipeline coordination in this construction segment. BP has four locations where they cross the lines of protection and all their work is now completed. They worked as best they could with the residents. The town of Munster has completed their relocation; and NIPSCO has completed their relocation work west of Northcote.
- Stage VIII utilities - Mr. Pokrajac reported that the relocations by NIPSCO should be starting in a few weeks. There are about 10 locations that need to be completed before the contractor begins in that area. The Hammond Sanitary District has a major pipeline near Manor Drive that they should be starting this early fall.
- Pump Stations contracts – Mr. Pokrajac reported that all 3 pump station contracts are ongoing. Pump Station 1A (that has 4 pump stations) is almost complete. Pump Station 2A (2 pump stations) will be completed by late summer. Pump Station 2B (3 pump stations) should be completed by April 2010. Once completed, the pump stations will improve landward side of drainage.

Operation & Maintenance Committee – Mr. Gurley referred to the letter that the Commission received from the Army Corps as a result of the series of inspections performed in 2008. Inspection work was for completed construction and has been turned over to the Commission. The letter calls for action from the Commission to remediate the noted, unacceptable items. The Commission will respond in writing. Now that the construction segments are all awarded by the Army Corps, the immediate focus of this Commission is now on O&M and Emergency Response. Currently, there is no effective O&M and Emergency Response plan in place. The Commissioners will be meeting shortly to discuss this issue.

- Jim Pokrajac reported that levee mowing needed to be done before any O&M work could be done because it is so overgrown. There has been no mowing yet this year. He has received a proposal for $4,250 for all of the mowing in Gary. If we did that mowing, it would allow us to be able to do the O&M. Commissioner Kent Gurley understood the need for the mowing and it will be put up for action.
- Jim Pokrajac reported that he attended a meeting at which INDOT talked about the I-80/94 flooding last September. INDOT has an ongoing task as a result of the closure of the Borman due to flooding. Their task is to remediate what caused the expressway to flood, and how to correct it so it does not happen again. They realize they have a problem at I-65 with flooding and Indianapolis Blvd. A number of features in our project are a benefit to INDOT, i.e. sluice gates, flap gates, inspections, etc. They need and want to be involved in emergency response also.
• Considering the importance of O&M, Kent Gurley made a motion for committee and staff
to write up a plan to hold a stakeholders meeting within 1-2 months with communities
directly involved to discuss ways to move forward with O&M; motion seconded by Bill
Baker. Discussion ensued. Mr. Baker asked if the meeting would be just for the
municipalities. Mr. Gurley answered that they should start with the stakeholders that share
the levees along the river and not expand it to include the entire watershed. It is our
responsibility to collect as much information/input as we can to develop a complete plan.
Mr. Baker maintained that most of the residents do not know about pump stations and
closure structures; that should be our job. We built it; we should be able to maintain it. Mr.
McAhron concurred that an open dialogue with residents is necessary to get their input and
the legislators have encouraged the Commission to do that as well. It was agreed that more
updated information is needed from the Corps before a real comprehensive plan can be
developed. Mr. McAhron feels that the current O&M procedure that the Corps has needs to
be updated to today’s needs (i.e. the closure panels at 35th & Chase that have proved to not
be practicable). Captain Lavicka confirmed that the Army Corps Geotech Division is in the
process of updating the O&M. Since Katrina, things have changed. Capt. Lavicka
confirmed that the Army Corps wants the O&M to provide the best protection possible to
the residents and the plan will have to be reviewed by FEMA for approval also. After the
lengthy discussion, the motion passed with a roll call vote 5-0.

Legislative Committee – Commissioner Ron McAhron stated that he is happy that the
legislators have supported and appropriated the $14 million to complete the project and
address major issues. How to access that $14 million still remains to be finalized. He has
been assured that the entire $14 million is there and thanked Senator Mrvan and
Representative Mara Candelaria-Reardon and the entire legislative body for their support.
• Chairman Dernulc stated he would be trying to contact the MBE/WBE compliance officer
that had contracted with RDA to resolve an issue with compliance. He has tried several
times but has not been successful yet.

• Chairman Dernulc asked the Board members if there was anything they wanted to say.
Commissioner Bill Baker expressed his appreciation to the audience for their support and
help. He added that the $14 million is the most the Commission has ever received. He looks
forward to the lines of protection being completed. But, once complete, the maintenance is
very important. He thanked the Governor, as well as the Congressman. Commissioner
Tom Wichlinski agreed that the most important item to do was to complete the lines of
protection and keep moving forward.

Other Business – Chairman Dernulc also expressed gratitude to the Governor,
Congressman & legislators. He thanked Senator Mrvan for attending the meeting; he
acknowledged his father and wife in the audience tonight.

Statements from the Floor –
• Bob Farag from Griffith Golf Course asked the members if it would be possible to include
a bio sketch of each of them with their experience (as called for in the legislation). He also
asked whether the Commission would pursue the hiring of an Executive Director for the
Commission. Chairman Dernulc answered that is one of the items that the Commission is
discussing.
LCRBDC Minutes – August 3, 2009 – Page 5

• Bob Paulson from Munster informed the Board that he had witnessed someone stealing some sheet piling from the project site near Northcote Bridge. He called the police but had no luck with either Munster or Hammond police responding. Councilman Dave Nellans will check with the Munster police.
• Senator Frank Mrvan congratulated the members on their appointments. He said that the Governor and the entire legislative body really helped out in supporting the $14 million. He asked whether the Little Calumet River was a federal waterway. Attorney Casale informed him that the river is a regulated local drain, per statute, and we have the same powers that the county surveyor/drainage board has.
• Bill Howard thanked the Board members and stated his concurrence that O&M is very important. He believes there should always be a funding source for maintenance of the waterway in place. He asked whether O&M money that the Commission spends would come out of the $14 million. Commissioner McAliron replied that there are no restrictions on the $14 million. Discussion ensued on how the river is taking on water from all the tributaries further south so that should be taken into account when funding is talked about.
• Bridget Bodefeld from Munster asked the Corps what environmental issues need to be taken care by the contractor in SVIL Army Corps representative Sheldon Edd replied that contractors need to do a plan for environmental action during construction. They are in the process but not done yet.
• Steve Engle from Munster asked the Board members if they would ask the Army Corps what their methodology and revisions to the completed berms was. He will send a reminder email to Mr. Dernulc.

Chairman Dernulc closed the Statements from the Floor. He proceeded to announce that attorney Lou Casale will be leaving the Commission. Attorney Casale added that he has been very busy acquiring the ± 100 property easements during the last year and he considers the bulk of his job complete. His contract calls for a 30 day termination clause and it will take at least that long to transfer files to another legal counsel. He offered his help for a smooth transition and will be available yet as needed for properties still in court. He thanked the members and the staff for working very hard. The new focus will be O&M as the Commission goes forward so he felt it was time for him to move on also. When asked if a new counsel would take over the existing court cases, Mr. Casale replied that until a new counsel is selected, he will still handle those cases. Chairman Dernulc thanked him for his years of dedicated service.

There being no further business, the meeting was adjourned. The next meeting was scheduled for Wednesday, September 2, 2009 at the Munster Town Hall, with a work study session scheduled at 5:30 and the public meeting at 6:00. (Within a couple of weeks, an Executive Session will be scheduled).
August 19, 2009

Mr. William Hanna  
Executive Director  
Northwest Indiana Regional Development Authority  
9800 Connecticut Drive  
Crown Point, Indiana 46307

Dear Mr. Hanna:

Once again, we need some short term help and our needs include some items outside the original terms of the loan. The requested funds will not only go to utility relocations and land acquisition but also to address operating costs, including pressing operation and maintenance deficiencies where the levee system has been judged unacceptable by the Army Corps. We are asking for $250,000 to carry us over until October 1, 2009. By then we will be able to access funds allocated to us in this biennial budget. This $250,000 will be in our first draw request under the new budget and we will repay the $250,000 in full at that time.

We had hoped to be able to use the $226,000 remaining from our May 18, 2009 request for gap financing but the Army Corps is now demanding that payment (see attached letter) leaving us with inadequate funds to function without a short term cash infusion.

Thank you for your consideration. Please do not hesitate to contact me if you have any questions.

Sincerely,

Daniel E. Denujc  
Chairman

/attach.
August 26, 2009

Ron McAhron  
Deputy Director, DNR  
402 W. Washington Street, Room 256  
Indianapolis, IN 46204

Dear Mr. McAhron,

The RDA is aware that the Little Calumet River Basin Commission received $14 million in the State Budget to complete work on the Little Calumet River. We are also aware through your recent request that the $14 million can not be accessed until October 2009. As a result, the Commission will not have the immediate funds to continue with land acquisition, utility relocations, and needed maintenance. In addition, the Commission will not have the financial resources to make payroll and other operational expenses for approximately four weeks prior to October.

The RDA is prepared to meet your request of $250,000 to resolve your emergent situation. The $250,000 will be deducted from the remaining $1.4 million of the total $6 million loan made by the RDA to the Little Calumet River Basin.

I would like to stress that the portion of the draw to be used for operational expenses has been approved by the RDA Board of Directors as a one-time exception outside of the current loan agreement. The exception is being made only to avoid the stalling of progress that may otherwise occur before the state funds are available to you.

The RDA Finance Manager will contact your office immediately to facilitate the required transfer. We would appreciate a detailed report on expenditures related to this draw as soon as it is available.

I look forward to seeing meaningful progress on this important project. Thanks for your efforts.

Sincerely,

William Q. Hanna  
Executive Director

Mr. Dan Dernulc
Chairman Little Calumet River Basin
Development Commission
6100 Southport Road
Portage, Indiana 46368

Dear Mr. Dernulc:

The Department of the Army hereby issues a written request for the Little Calumet River Basin Development Commission's American Recovery and Reinvestment Act (ARRA or "STIMULUS") cost share amount of $226,000. These funds were requested in a letter to you dated May 6, 2009 (attached).

Please provide the amount requested above in the form of electronic fund transfer. Please use the information in the attached sheet to perform this transaction. If you have any questions please call Imad Samara at 312-846-5560.

If you have any questions, please contact me at 312-846-5560.

Sincerely Yours

Bridges over Little Cal studied

Northcote span in 'too good a shape' for federal funding to rebuild it

BY LU ANN FRANKLIN
Times Correspondent

Three bridges spanning the Little Calumet River are being scrutinized to determine their role in remediating future flooding, and an interim report is expected to be presented in mid-August. Sponsored by the Lake County Highway Department, the $60,000 study is being conducted by DLZ, a Midwest firm specializing in architectural, engineering and environmental projects.

The Northcote Avenue bridge has been the center of controversy since the Little Calumet River flooded Munster neighborhoods last September. Residents of the town’s Wicker Park Estates neighborhood repeatedly have spoken at Munster Town Council meetings asking for action to close or reconstruct the bridge.

But if the study finds the Northcote bridge needs to be rebuilt, no federal funds are available because the bridge is in good structural shape, said Duane Alverson, county Highway engineer. A "sufficiency rating" is done on bridges in the county’s jurisdiction every two years.

"The Northcote bridge has a sufficiency rating of 87.6 out of 100. It’s in good shape," Alverson said. "I cannot get federal funds to replace that bridge. We have to go after another source of federal funding."

The study focuses on the Northcote bridge between Munster and Hammond, the Kennedy Avenue bridge between Hammond and Highland and the Harrison Avenue bridge in Gary. The cost of studying each bridge is about $20,000, Alverson said.

Lake County will cover most of the study’s costs. Munster and Hammond each will pay 5 percent of the cost of studying the Northcote bridge, or about $1,000 per municipality, Alverson said.

See BRIDGES on Page A5

CONTINUED FROM PAGE A3

**Bridges**

The Munster-Town Council recently approved $2,790 for the town’s share of the study.

Army Corps of Engineers and the Little Calumet River Basin Development Commission, which is working to complete legal details designed to prevent future flooding, will look at various options for the bridges, including raising the level of water to keep the bridges from flooding. The study also will look at options for the bridges, including raising the level of water to keep the bridges from flooding.
'Unacceptable' sections of levee prompt calls for review

Some of $14M might go to improvements, Little Cal panel says

MUNSTER | Some of the $14 million awarded to the Little Calumet River Basin Development
Commission to complete a levee system around the river and Hart's Ditch likely will go toward
maintaining existing structures that have fallen into disrepair.

Commissioners received a report Monday night from the U.S. Army Corps of Engineers rating levee
segments in Gary as unacceptable, meaning items needing attention would prevent the segments from
performing as intended.

With the anniversary of last September's record flood approaching, Commissioner Ron McAhron said
completing the system has been the group's focus and more attention needs to be given to what already has
been built. He said a $14 million allocation in the state budget does not come with any limits and a portion
could be used to get everything back into compliance.

"We need to create priorities," McAhron said. "Some catch-up work has got to come out of this $14
million."

Upon the recommendation of Commissioner Kent Gurley, commission members will meet with
representatives of communities along the river to begin discussing maintenance options in the coming
month. Gurley said that the state requires the commission to put together a maintenance plan and seeking
input from residents directly affected by flooding could be valuable.

"It's a good opportunity to get people on track and discuss what's worked, what's not," McAhron said.

But, Commissioner Bill Baker said people are getting tired of inaction and things moving at a snail's pace.
He said the commissioners should come up with a plan as quickly as possible and arranging a meeting with
many municipalities might hasten that getting done.

"These things have been here for 25 years," Baker said. "We built it. We know where all the hot spots are."

Work on the remaining portions of the levee system, though, is moving forward quickly. Sheldon Edd with
the Army Corps said the final two stages of system construction have been awarded and a pre-construction
meeting is scheduled for this week to iron out details.

"People want to see dirt fly," McAhron said.

New commissioners appointed

A revamp of the Little Calumet River Basin Development Commission signed into law earlier this year
reduced its membership from 11 to five members. Commissioners Dan Dmrnle, Bill Baker, Kent Gurley
and Ron McAhron were reappointed by Gov. Mitch Daniels. Tom Wichlinski, of Griffith, is the lone new
appointment.

Little Cal panel smaller, but with one new member

* One new member on commission, which was restructured after flooding.

Comments

August 7, 2009
By Andy Grimm, Post-Tribune staff writer

INDIANAPOLIS -- The four members of the Little Calumet River Basin Development Commission will remain in their posts, Gov. Mitch Daniels announced Thursday.

State legislation passed this spring -- in the aftermath of controversy following massive flooding in Lake County blamed in part on levy construction that had dragged on for decades -- pared the number of seats on the commission from 11 members appointed by the governor and local officials to just five seats.

The governor appoints four members and a fifth slot is reserved for a state Department of Natural Resources officer who effectively answers to the governor.

The terms were part of a compromise struck by local legislators to ensure state funding to finish about $14 million worth of levy improvements on the project, which began more than 20 years ago.

Daniels' appointees are:

* Highland Town Councilman Daniel Demulic, who was appointed to a partial term in 2008;

* Kent Gurley, of Hammond, an engineer for Teng & Associates, who served as treasurer for the commission in 2008;

* Munster resident William Baker, director of Urschel Development Corp. and Urschel Laboratories Inc.

* Griffith Republican Party Chairman Thomas Wichinski is the lone new appointee.

Department of Natural Resources Deputy Director Ron McAfrion, who serves in his post at the discretion of the governor, also will remain on the board.

State Rep. Ed Soliday, R-Valparaiso, who wrote the bill that restructured the commission, said he was disappointed to hear Army Corps of Engineers officials already reporting some of the $14 million intended to finish the work may instead go to repairing decrepit sections of the levee.

Now commissioners will be charged with drafting a final plan to complete the decades-old project, and come up with a way to train local workers to operate and maintain flood control equipment.

"Let's do what the bill intended: Let's get this thing done and get a maintenance plan," Soliday said. "This has gone on 28 years, we need a resolution."
The Borman Expressway is flooded along Kennedy Avenue and the Little Calumet River after heavy rains overwhelmed the region last September. The state will install a stormwater pumping station southeast of the Kennedy interchange to alleviate flooding problems.

Borman to get flood fix at Kennedy Ave.

INDOT is mulling possible work for Indianapolis Blvd.

BY KEITH BERNAN
keith.bernane@indy.com (219) 933-5506

The Indiana Department of Transportation will install a stormwater pumping station southeast of the Kennedy Avenue interchange on the Borman Expressway to alleviate flooding that closed the Borman twice in two days. “We’ve learned a lot in the last two years,” INDOT Deputy Commissioner Michael McPhillips said Tuesday.

But INDOT is stopping short of implementing all the recommendations in an engineering report prepared after flooding first closed the road in August 2007.

That report, prepared by Indianapolis engineering firm Earth Tech, called for $7 million in flood-prevention improvements, including a pumping station at the Indianapolis Boulevard interchange. Preliminary estimates put the price of the Kennedy pump station and other work at about $2 million.

McPhillips said at a Tuesday meeting of Northwestern Indiana Regional Planning Commission’s transportation policy committee. Bids will be opened for the project in the fall.

McPhillips said the recent building of the Little Calumet levee south of the Indianapolis Boulevard interchange and changes affecting that area’s hydrology are believed to have resolved much of the flooding problems there. INDOT also has pumps on standby that can be moved into the area in case waters rise.

He said INDOT is taking a wait-and-see attitude and will do more work on the Boulevard interchange if needed.

Hammond City Engineer Stan Dostart praised the INDOT project Tuesday. He said the installation of a flood gate that can be operated manually south of the Indianapolis Boulevard interchange has gone a long way to resolving the problem at that location.

“Kennedy is the worst-case scenario because it’s the lowest point on the Borman,” Dostart said. Hammond officials, including Dostart, led the design of the Borman’s drainage system after the 2007 flood. INDOT officials defended the road’s design, saying the unusually heavy rains that August were to blame.

On Tuesday, McPhillips said plans laid after the 2007 flood just weren’t up to the task when the September 2008 floods poured in.

“We had an action plan, and we put it into effect, but the river didn’t stay in its banks, and we were flooded,” McPhillips said.

After the 2008 flood, when the road was closed for a week, U.S. Rep. Pete Visclosky, D-Ind., called for an inquiry into the Borman project.

Borman

design. Expansion work on that portion of the road had been completed three years prior.

INDOT reviews found the 2007 flooding at the Kennedy Avenue interchange was caused mainly by a 14-inch flap gate that was stuck in the open position when it should have been closed.

All reviews have shown that better communication among government agencies would help in the case of future floods. After the 2008 flood, then-Little Calumet River Basin Development Commission Chairman Dan Gardner called for his commission, the city of Hammond and INDOT to work together on a solution.

On Tuesday, McPhillips said INDOT now is conducting a survey of drainage and hydrology along the entire Borman Expressway corridor. He said his agency will be entering into a memorandum of understanding with the Little Calumet River Basin Commission to better coordinate their activities in the future.
Highland digs in to remedy flooding woes

Excavation set to start on huge detention basin

BY CHARLES F. HABER
Times Correspondent

HIGHLAND | With a groundbreaking ceremony Saturday, Highland took a major step toward remediying the flood woes plaguing the town for the past few years.

Members of the Town Council and Sanitary Board and more than 80 residents checked out the future site of the Homestead Gardens Detention Basin and Storm Sewer Improvement Project. The basin will sit east of the 3500 block of 81st Street near the Little Calumet River.

It will be about 1,000 feet long, 150 feet wide and 5 feet deep, Public Works Director John Bach said.

During dry weather, it simply will appear as a grassy, depressed tract of land, said Bach, who also is the sanitary district superintendent.

But things will look very different during times of major storms.

"The size of the basin, in technical terms, is 8.5 acre feet," Bach said. "Or, in layman's terms, about 2.75 million gallons" of water.

While it will not lower the local water table, it will be able to "detain" excess water until the storm sewers are able to dispose of it, he said.

"The project will begin (this) week with excavation in about two weeks," Bach said. The basin should be completed and ready for immediate action by Dec. 1, he said.

The project is the first portion of the Sanitary Board's overall $10 million capital improvement plan, Bach said.

CONTINUED FROM PAGE A3

Flooding

The basin and storm sewers will cost $768,000. The primary contractor is Gatlin Plumbing & Heating in Griffith, which has subcontracted the digging work to Biesen Excavation, of Griffith, Bach said.

The project aims to ease stormwater problems in the area bounded by Grace Street, Liable Road, LaPorte Street and the river, Bach said.

It also includes new storm sewers for the 8200 to 8300 blocks of Grace Place in conjunction with a sump pump separation project.

Current Status of Little Calumet River Projects
September 1, 2009

East of Kennedy Avenue - All projects that have been started are functional and essentially complete.

West of Kennedy Avenue –

1) Stage 5-2
   a. In Munster –
      i. All levees built.
      ii. All concrete floodwall completed.
      iii. Sheet pile floodwall installed.
      iv. Baring Avenue pump station outlet and sheet pile floodwall concrete cap and face remain to be completed.
      v. Riprap placement along Hart Ditch floodwall being completed.
   b. In Wicker Park –
      i. All concrete floodwall completed.
      ii. Minor drainage work through floodwall to be completed.
      iii. Levee fill completed through the park.
      iv. Storm sewer outlet structure near Tri-State operational.
   c. In Highland -
      i. Concrete floodwall completed from Kennedy to near Norfolk Southern Rail Road (NSRR) tracks.
      ii. Piling for floodwall in utility corridor east of NSRR tracks completed. Remaining concrete portion of floodwall in corridor to be restarted soon.
      iii. NSRR closure structure and adjacent floodwall, including sheet piling, not started.
   d. In Hammond West of Indianapolis Boulevard -
      i. Riprap placement Hart Ditch confluence area completed.
      ii. Levee fill is completed.
      iii. Pedestrian Bridge abutment work completed.
   e. In Hammond between Indianapolis Boulevard and Kennedy Avenue –
      i. Levee fill is completed west of NSRR tracks. Outlet structures 6-5C and 6-3C functional.
      ii. Floodwall immediately east of NSRR completed, floodwall not completed just west of Kennedy Avenue.
      iii. Storm sewer outlet work at Kennedy Avenue needs to be completed.
      iv. Indianapolis Boulevard pump station outlet gate well and floodwall structure is partially completed, final portions in progress now.
      v. Levee fill from utility corridor to Kennedy partially completed.
      vi. NSRR closure structure and adjacent floodwall, including sheet piling, not started.
   f. Hammond and Munster - The construction of the concrete portion of the closure structure in the Little Calumet River just east of the Baring Avenue pump station has been completed. The earth fill and erosion protection around the structure will be one of the last features of work completed.

-more-
2) Stage 7
   a. Contract was awarded for $13,814,973.70 on April 16, 2009 to Ceres Environmental Services, Inc.
   b. Notice to proceed was acknowledged by Ceres on May 12, 2009.
   c. The preconstruction meeting was held with Ceres and local government representatives on May 14, 2009.
   d. Ceres' temporary field office is being established on the southwest corner of River Drive and Northcote in Hammond.
   e. Surveying of work limits will be the first construction activity on site, followed by clearing of trees and installation of temporary fences.

3) Stage 8
   a. Contract was awarded for $12,955,886.79 on June 26, 2009 to Walsh Construction Company of Illinois.
   b. Notice to proceed was acknowledged by Walsh on July 27, 2009.
   c. The preconstruction meeting was held with Walsh and local government representatives on August 5, 2009.
   d. Walsh Field Office established using local office space in Munster.
   e. Surveying of work limits will be the first activity on site, followed by clearing of trees and installation of temporary fences.
   f. Walsh Construction working on scheduling (target is end of September 2009).
   g. Five hundred days needed to complete lines of protection (late fall 2010).

PROJECT STATUS/MAJOR ISSUES
- Awaiting request from Mr. Pokrajac to remove a portion of the damaged area from the contract work. Mr. Pokrajac will also have the levee's surveyed to compare to as-built drawings. The sponsor's surveys show results with elevations as much as 8' below design elevations. The surveys should be reviewed by geotech to determine if the sponsor's elevations are accurate. CAO sent an email on 27 November to follow up on this issue.
- Some bare areas exist along the project stretch. The Contractor reseeded the areas in Spring of 2009.
- The Government is evaluating correspondence from the Contractor in regards to areas inundated with water, areas affected by the billboard contractor, and bare spots. The Contractor has reseeded these areas.
- The Contractor is working on the monitoring portion of the project.

**Project Status/Major Issues:***

- This Contract is incrementally funded. 
- A contract modification has been negotiated and is being processed to compensate the Contractor for all remaining adverse weather delays and differing site conditions delays experienced prior to April 1, 2009 that will extend the contract completion date to May 15, 2010. The current completion date is January 30, 2010. April and May 2009 were extremely wet, the impact of this adverse weather is being determined at this time. The combination of the effects of adverse weather and the effects of contract modifications that are being processed will result in a contract extension approximately to the end of July 2010. This estimate does not include additional future modifications or more unusually severe weather in 2009.

Current Progress - Sheet piling and concrete for flood wall in process in utility corridor. The Hart Ditch Control Structure concrete has been completed, embankment yet to finish.

- Tri-State and 6-5C gate walls partially complete and essentially functional.
- Pending mods- not all listed. * Trail/Fence Changes,* proposal received * Hart Ditch Ctrl Structure Access
  * Baring Ave Pump Sta overflow outlet DSC, modification being written.
  * RFP issued for 18" CMP DSC Wicker Park S-Wall, Proposal Received * Baring floodwall raise, proposal in review
  * Excess excavate material, 6N * Overstrip/imperv. fill in var. locns. - $600,000 add to contract
  * Access Ramp 5N-E and drainage structure re-alignment modification in process.

Contract Awarded 30 September 2008
- New Pumps for the three pump stations currently being fabricated. Pump installation scheduled to begin in SEP 2009.
- Pending Issue - Excessive influent into the Indianapolis Pump Station prevented Contractor from working in the wet well from mid April until early July. Contract change in progress - delay ruled by KO to be partially adverse weather & partially differing site condition. Requested Contractor to provide impact to contract in letter dated 30 JUL 2009.
- Contracting Officer issued an RFP to NIPSCO for utility upgrades at Southside, Jackson & Indianapolis.
- Pending Changes:
    SS005 Remove Additional Discharge Box Plates at Southside PS - Est. $15,000 Increase
    SS006 Revise Ceiling Light Supports - Est. $2,000 Decrease
    SS007 Provide Photocontrols on Exterior Lights - Estimate Pending
    SS008 Remove Carbon Dust - Pending Further Evaluation
    SS009 Remove Grit from Southside Pump Station - Est. $15,000 Increase.
    SS013 $4,000,000 Incremental Funding Mod in progress.
    SS014 $3,000,000 ARRA Funding Mod in progress.

**PROJECT STATUS/MAJOR ISSUES:**

**Contract is incrementally funded.**

- The Contractor is required to complete the flood control work within the first 500 days of the project (Sept. 24, 2010).
- The Contractor and Corps met on May 14, 2009 for the Preconstruction Meeting.
- The Contractor has submitted a project schedule and the key initial submittals have been approved. The Contractor can now start work on site.
- The Contractor has brought a field trailer on site for a project office and also mobilized some equipment to the site.
- P00001 is an administrative modification to change minor contract wording. Does not affect work or value.
